

Ideation Phase

Empathize & Discover

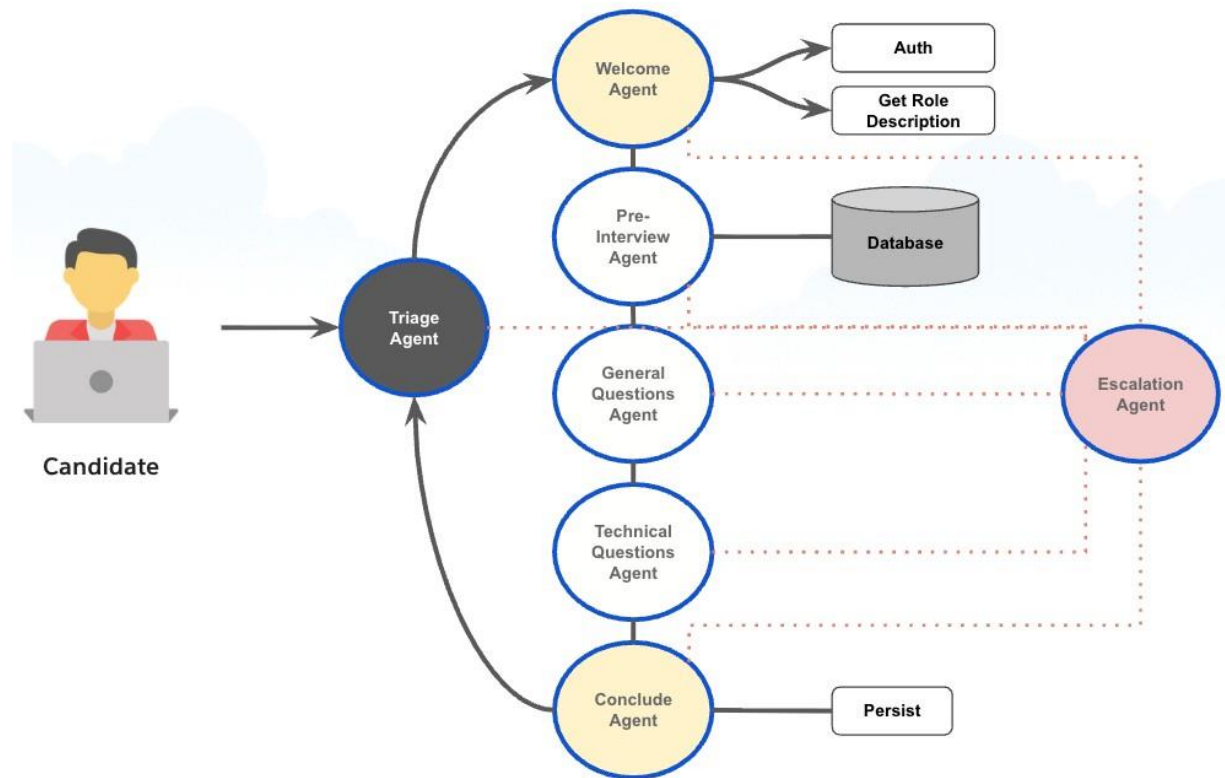

Date	15 March 2026
Team ID	PNT2022TMIDxxxxxx
Project Name	AI-Enabled Student Admissions & Support Management System using Salesforce Agentforce
Maximum Marks	4 Marks

Empathy Map Canvas:

The **Agentforce Agent Graph** provides a structured, automated journey for job candidates through a series of specialized AI agents:

- **Triage Agent:** The central "router" that directs the candidate to the correct phase of the interview.
- **Specialized Agents:**
 - **Welcome Agent:** Manages login (**Auth**) and explains the job (**Get Role Description**).
 - **Pre-Interview Agent:** Syncs with a **Database** to handle candidate background data.
 - **Interviewers:** The **General** and **Technical Questions Agents** conduct the core assessment.
 - **Conclude Agent:** Finalizes the interview and saves all results (**Persist**).
- **Escalation Agent:** A fallback path available at every step to handle complex issues or provide human-like intervention when needed.
