

Project Design Phase-I
Proposed Solution Template

Date	15 March 2026
Team ID	PNT2026TMIDxxxxxx
Project Name	AI-Enabled Student Admissions & Support Management System Using Salesforce Agentforce
Maximum Marks	2 Marks

Proposed Solution Template:

Project team shall fill the following information in proposed solution template.

S.No.	Parameter	Description
1.	Problem Statement (Problem to be solved)	Prospective students face 2–5 day wait times for admission queries, while staff are overwhelmed by repetitive manual tasks, leading to "enrollment melt" and student anxiety.
2.	Idea / Solution description	An autonomous Salesforce Agentforce system grounded in Data Cloud that uses the Atlas Reasoning Engine to provide 24/7 personalized admissions support and trigger automated workflows (Flows).
3.	Novelty / Uniqueness	Unlike static bots, this solution uses Real-Time Intent Extraction and LLM reasoning to understand complex student context and act autonomously on real-time data.
4.	Social Impact / Customer Satisfaction	Increases student confidence and trust by providing instant, accurate guidance, while reducing staff burnout by automating up to 70% of routine administrative inquiries..
5.	Business Model (Revenue Model)	A SaaS-based subscription model for educational institutions, or a performance-based model centered on the volume of successfully processed student applications.
6.	Scalability of the Solution	Highly scalable through the Salesforce multi-tenant cloud architecture , allowing the agent to handle thousands of concurrent global inquiries across Web, WhatsApp, and Slack.
